CONFERENCE DOESN'T MEAN ONLY MEETINGS...

An interview with Conference Chairman, JCI EVP Yuki Nishio

- Q) How do you enjoy the life of JCI EVP this year?
- A) Fortunately, I am lucky enough to work with outstanding JCI VPs and National Presidents in this Area B. I have to do nothing except communicate with them.
- Q) Have you able to travel most of the NOMs of Area B?
- A) I have been concentrated my attention to ASPAC since I had elected as EVP. My visitation to the NOMs will be after the ASPAC. I'm looking forward to meeting members in their countries and sharing my thoughts with them.
- Q) Has the Asian economic downfall affected the performances of the Area B NOMs?
- A) I don't believe so. We can be more active when facing hard times. We can learn how to manage our time and activities during this critical period of time.
- Q) What are the major or common problems encountered by NOMs?
- A) Many countries in this Area are now experiencing economical crisis. Together with declining membership, many NOMs have financial problems. We have to keep quality of our activities with fewer budgets.
- Q) Membership dropout has been a very serious problem. What can JCI do to assist NOMs to increase membership growth?
- A) There is no royal road. We have to keep promoting JCI activities and advantage of Jaycee step by step. From JCI, tools to promote JC are always available. I believe visitation of JCI Vice Presidents to LOMs could be great support to membership recruitment. Please use 100% of service from JCI.
- Q) What are your expectations on the Bali Conference?
- A) Satisfaction of the members. Participation is a key to successful Conference. If the participants really enjoyed this Conference and keep their good experience in mind, it would be great contribution in preparation for the coming new millennium.
- Q) Please say something to the delegates
- A) "Conference" doesn't mean only meetings. There are various seminars, training sessions, trade show and parties. Moreover, you are always provided with opportunity to meet new friends. Please take full advantages of the Conference and share good feeling. Don't forget to enjoy yourself with excellent food and many activities.

With that hope and innovation, by uttering *bismillahir-*

rahmanirrahim (in the name Allah the Compassionate and the Merciful), President Habibie declared this ASPAC Conference to be officially opened. He hopes that our visit to Bali would be enjoyable and impressing.

All delegates, hope you enjoy the times in Bali!

President Yong Suk Choi, JCI Officers, NOM Presidents and many other guests were invited to join this wonderful night.

As a bidding chapter, Taegu JC surely would take this chance to promote the 2001 Taegu ASPAC. Taegu JC had arranged the performance from the Samul Group, a Korean traditional drum team. Korean JC also brought us the Korean traditional dressing, such as traditional wears for the King and the Military General. Certainly, all delegates would not miss the interesting games, refreshing Korean food and drinks and memorable souvenirs. Nice music by live band and dancing in the square were never ceased until midnight.

PERSONAL DYNAMIC

What were the challenges today and in the next 10 years? How would you prepare for that? Chairman Joselito Reyes, NOM President of Philippines and Vice Chairman Peter Ensor, NOM President of New Zealand invited two speakers to give some inspiration on this topic to the 35 members participated in this Personal Dynamic Seminar.

The first speaker Ashrafali Nizari, past JCI EVP from India, used some lively games to lead the participants to think about the topic and the second speaker Dilip Kamdar, past NOM President of India, followed by giving some ways and means on how to prepare for that. It could be consolidated into one simple sentence "to upgrade yourself to interact with the external changing environment"

How can we do that? Firstly, we have to enhance our effectiveness through a S.W.O.T. analysis of ourselves. Secondly, we have to set up our own vision, mission and goals for the future and to change ourselves to achieve them. Finally, we have to develop friendship and network around us.

ASPAC SENATE OPENING CEREMONY

The Senate Opening Ceremony was held on Jun 18 at the Hilton Hotel. The Opening was highlighted by the National Indonesian dance.

JAPAN NIGHT

Everyone knows that Japan Night is one of the popular functions in ASPAC. Not only it has various creative game booths, attractive prizes, delicious food, it also create the sort of atmosphere that urge you to throw away all your inhabitation and enjoy the games and performances they provided.

Games of different nature were provided

to suit the taste and personality of different types of fellow JCs. If you find throwing darts or fishing too testing, then you may find satisfaction in learning your name in Japanese and creating your own colorful handkerchief.

If you have a 'strong' voice, you may like to test your strength on the stage. Audiences were invited to come on stage to test their volume of voice by shouting three lovely words as loudly as they could. So, the three lovely words can be heard over and over again throughout the night. What are these three lovely words - "I Love JC!"
